EVALUO
QUESTION EVERYTHING

Hello and welcome to Evaluo!

We are an online platform that makes testing procedures easier.

We offer an attractive, fast and intuitive test creating process and detailed analytics and reports of the tested candidates in group and individual basis.

Add or **Edit** tests wherever you are through the app and the Web application.

No limitations and boundaries, even on the go!

Testing made digital and globally accessible.

Our application is suitable for everyone: Educational and Business Institutions, Students and Authors who publish tests.

A new, digital and intuitive test-creating and test-taking experience, designed for everyone.

Try out our app today, through our Website or download our app on the Google Play Store or the iOS App Store.

QUESTION EVERYTHING

Information for
Authors

Authoring tools

Authors have many tools in their disposal for drafting and managing the exams.

· Creating specific tests.
· Rich variety of question types
· They can create question banks, which they can use to generate exams automatically.
· They can create groups and arrange the members of these groups.
· They can analyze the detailed reports of the individuals or groups.
· Stay connected with your subscribers.

Drafting specific tests

Create, build and publish tests quickly and easy. The test can be updated and edited up to the moment they are made public.

Unlimited number of tests and questions: Rich test features, like:
· Scheduling
· Shuffle questions and answers
· User invites
· Time limit
· Passing rate
· Test price
· Test privacy

Rich variety of question types

Supports questions with text, images, audio and video.

Also supports many different answer types:
· Single choice (support for images)
· Multiple choice (support for images)
· True / False
· Fill in the blank
· Match lines
· Ordering
· Grouping
· Matrix and more.

Questions Bank

By using the questions bank tool, you can save questions which you can use later to generate exams automatically. This valuable tool will help you prepare the exams without spending a lot of time.

Categorizing questions in different question banks for later use. Generating unlimited test from existing question banks based on question number and question weight (easy, medium, hard) criteria.

User groups

It enables the possibility of inviting test candidates into groups, organizing them and analyzing their results.

Subscribers

Stay connected with your subscribers. Keep your subscribers instantly informed about your activity via email and notifications.

Analytics and Reports

Offers accurate and detailed individual or group reports. You have the possibility to export reports in different formats and share through email or social media.
